

Without the wooden frame the weight of the door becomes lower. Magnetic strips give an improved closure of the door.

DGP-190 Beech and Aspen

The new DGP-190 Beech and DGP-190 Aspen have a lower weight due to the removed wooden frame. The low weight in combination with the three door hinges makes the construction stable. DGP is also equipped with an alongside inner handle which harmonizes well with the door as a whole. The frameless door is also provided with magnetic strip, which makes the door always close tightly.

DGP-190 Beech replaces DGP-190 Alder.

The new DGP door has an alongside handle on the inside too.

Sauna door DGP 190 Beech

(Art.nr 9103 2040)
